ALL-ON-4™ CLINICAL COURSE
Presented by Dr. Paulo Malo and the MALO CLINIC Clinical Team

SYNOPSIS

All-on-4™ is an innovative surgical procedure for the rehabilitation of edentulous jaws focusing entirely on the patient.

During 2 days Dr. Paulo Malo, the pioneer of the All-on-4™ Concept, and his clinical team will show you how the patient will have immediate function and excellent esthetics with a limited number of implants.

This course will teach you the skills and know-how to treat edentulous patients using the All-on-4™ protocol, from patient selection to treatment planning, all the way through to the fitting of the prosthesis so you can offer immediate function to your patients.

Hopefully when you get back to your office, you will be able to call back a few patients to offer them this new alternative.

COURSE OVERVIEW

- Re-thinking oral rehabilitation
- Patient selection and treatment planning
- Live All-on-4™ surgeries in the maxilla and/or mandible
- Placement of prosthesis
- The esthetic possibilities of All-on-4™
